Per CDC and DHEC guidelines, and due to the nature and size of our facilities and the need for close contact between staff and patrons, everyone within the facilities are required to wear a mask at all times.

The Union County Library System (UCLS) requires all people over the age of 2 on the premises to abide by the following safety practices:

- To wear a cloth, fabric, or medical-grade mask or face covering over the nose and mouth at all times while within the facility. Masks are provided if needed.
 - Face shields, bandanas, and any face covering that does not cover the nose and mouth will not be permitted.
- To maintain social distancing guidelines of keeping at least six feet away from other patrons and staff who do not share a household with you.
- For those patrons unable or uncomfortable wearing a mask in the building, UCLS will continue to offer no-contact holds pickup for materials and encourages use of our digital resources.
